

Climate Of Hope – Women lead energy justice in Israel and Palestine

On behalf of the members of the board of The Association of Environmental Justice in Israel (AEJI) and our partners in the field, in the communities, we would to thank you for your time.

Voting for the project "***Climate of Hope in the Middle East(ME) – Women Lead Energy Justice in Israel and Palestine***" is an expression of support for many important things, mainly:

- **Supporting** the ability of **Women**, everywhere but especially in traditional society, to lead environmental change for the community.
- **Supporting** the ability of households and communities to lead a 'Bottom-up revolution' in the energy field, while dealing with waste nuisances and air pollution, and turning waste into an energy resource in domestic use.
- **Supporting** the Need to advance innovative and socially tailored solutions, thus producing double impact - both socially and environmental impact on policy change in the long term.
- **Supporting** all those who work tirelessly to advance cooperation in a region of continuous geopolitical instability, as in ME region, with the understanding that environment is borderless, and human cooperation for the welfare of the population and the preservation of the environment will affect wide circles and will lead to stability and sustainability in the Middle East (ME).

We Thank Each of You for Your Support!

HOW TO VOTE

The online voting procedure is open now :

- I) For voting you need first to be registered - Quick Step [Sign up or log in](#)
- II) Go to the Best Climate Solutions website. There are 42 projects . Here is our project we ask you to Vote4Us: <https://www.bestclimatesolutions.eu/solution/climate-of-hope-women-lead-energy-justice-in-israel-and-palestine/>
- III) On the project profile there is the VOTE button.

Voting for project is ranking from 1 to 5 on the four criteria:

- viability;
- innovation (at the technological, social, or organizational level);
- expected/observed impact;
- scalability.

Click on the **VOTE** button on the project's profile and assign it 1 to 5 stars on each criterion, with 5 being the highest score.

After giving your rating, refresh the page to see the updated voting count on the project's profile.

We thank you all for your time and support!
